

LArIAT

Liquid In A Testbeam

Jason St. John for the T-1034 Collaboration
All Experimenters' Meeting
2015.11.09

Current activities

Cryo improvements

Replacing boil-off exhaust
phase separator with a
larger pipe

Improves LAr retention,
lowering costs

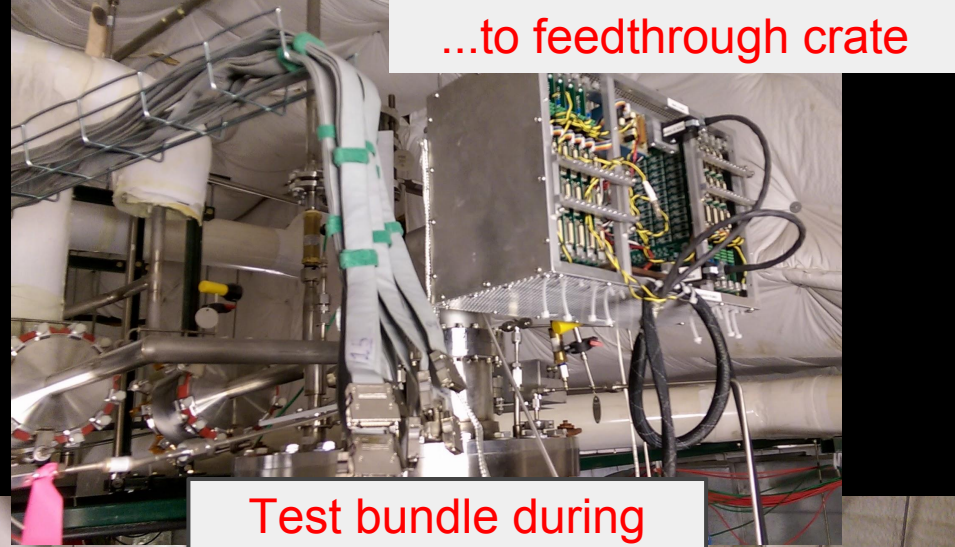

Current activities

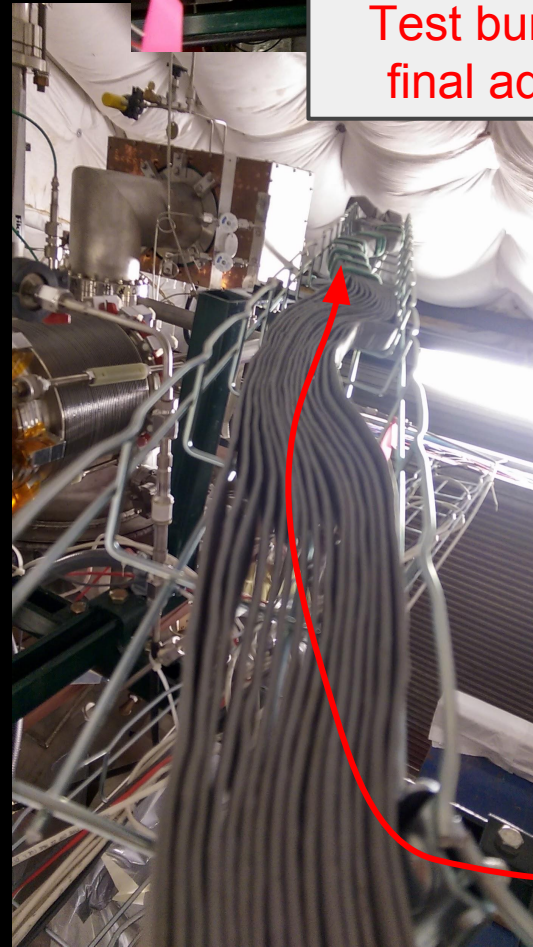

Readout Cable Tray Improvements

New cable tray design allows cryostat opening and closing.

(Repositioned racks slightly to get necessary slack.)

Test bundle during final adjustments

Up from racks...
